Enough

Mm

What's a dead end to a dead man walkin'?
(I feel fuckin' awesome)
Hittin' that wall, everything's exhaustin'
(I don't have a problem)
Everybody's fake and they won't quit talkin'
(This shit's lit, it's poppin')
And if I don't stop, then I'll end up in a

How many last chances will I get? (Get)
How many times can I let you down with regret?
How much can I ask for 'til you walk out that door?
Speak now or hold your breath, yeah

If not now when?
What's it gonna take? It just won't end

Will this ever be enough? Oh
Will this ever be enough?

Will this ever be (Yeah)

How many last chances will I get? (Get)
How many times can I let you down with regret?
How much can I ask for 'til you walk out that door?
Speak now or hold your breath, yeah

If not now when?
What's it gonna take? It just won't end
I need a savior, but if not me, who?
Will this ever be enough? Oh
Will this ever be enough?

Will this ever be (Yeah)
Will this ever be enough?

Lies, fuck it
My life's fallin' apart, but I love it
Know I should face it, but I'm runnin'
I'm runnin'
Don't like who I'm becomin'
I give in
Drop the disguise 'cause who am I kiddin'?
I need to switch up the life I'm livin'
So I'm back at the beginnin'
Back at bat, another innin'

Will this ever be (Yeah)
Will this ever be enough?
