Overdose

grandson

I was higher than the nosebleed
Turn up till my nose bleed
Blacked out in the black car
I'm trying to feel like a rockstar
I can't just do one now, no
I've been way to numb now
I'm living on the run now
Oh I gotta get out of this town somehow

'Cause the bads been slowly getting worse
And this fast lane, living its a curse
Better tell me what's your life worth
I think its time for a change
'Cause the bads been slowly getting worse
And this fast lane, living its a curse
Better tell me what's your life worth
I think its time for a change
Cause the drugs don't work

Anymore, anymore
Anymore, now the drugs don't work
Anymore, anymore
Anymore, now the drugs don't work

I couldn't find the fill again
Couldn't seem to kill the pain
I was living in the moment
Searching for a little serotonin
But, this shit ain't so fun now
I, can't tell what the come down
I've been living on the run now
Oh I gotta get out of this town somehow

'Cause the bads been slowly getting worse
And this fast lane, living its a curse
Better tell me what's your life worth
I think its time for a change
'Cause the bads been slowly getting worse
And this fast lane, living its a curse
Better tell me what's your life worth
I think its time for a change
Cause the drugs don't work

Anymore, anymore
Anymore, now the drugs don't work
Anymore, anymore
Anymore, now the drugs don't work
Anymore, anymore
Anymore, now the drugs don't work
Anymore, anymore
Anymore, now the drugs don't work

Woo, woo, woo, woo
Overdose, overdose, overdose
Overdose, overdose, overdose
All fun and games till I hit the floor comatose
Overdose, all fun and games till I hit the floor comatose

Overdose, overdose, all fun and games till I hit the floor comatose
Overdose
