

## 19 Forever

Granger Smith

I was Ringo Starr of the dashboard drummers  
You were turning up the radio  
Sitting in the middle, playing air fiddle  
You were hotter than a summer back road  
And it's crazy how I remember that perfectly

When we set sail away in a white Chevrolet  
With a Jerry jet sticker on the glass  
We cut through the night like the KC lights  
Knowing summertime wasn't gonna last  
And we swore that wouldn't matter  
And we'll stay like that together  
But we're not, cause we're not 19 forever

I remember the time you asked me for a ride  
If I could teach you how to drive stick  
You burned through the clutch and I burned to touch  
Every tan line wrappin' your skin  
And I still see every memory

When we set sail away in a white Chevrolet  
With a Jerry jet sticker on the glass  
We cut through the night like the KC lights  
Knowing summertime wasn't gonna last  
And we swore that wouldn't matter  
And we'll stay like that together  
But we're not, no we're not 19 forever

And I still sing along  
With all those old songs  
Well, I know it's wrong, I know it's wrong  
I know it's wrong  
I gotta move on

We set sail away in a white Chevrolet  
With a Jerry jet sticker on the glass  
We cut through the night like the KC lights  
Knowing summertime wasn't gonna last  
And we swore that wouldn't matter  
And we'll stay like that together  
But we're not, no we're not 19 forever
