Before It All Comes Down

Granger Smith

Stare out the kitchen window
I'll pretend I cant resist the mornin news
We don't say a word cause we know
Our own moves could send this whole thing through the roof

Tensions rising I know I cant
Go through this again
We don't have to let this happen baby take my hand

Before it all comes down like rain falling
Lets try to work this out
It all comes down to me and you talkin'
Before it all comes down

You and I can share the credit
For all the silence we've been sittin in
There's no doubt we're both hard headed
But we've come too far to let it end like this.

We've got problems we cant solve unless we open up
It doesn't matter what it takes we've got to save our love

Before it all comes down like rain falling
Lets try to work this out
It all comes down to me and you talkin'
Before it all comes down

Before it all comes down like rain falling
Lets try to work this out
It all comes down to me and you talkin'
Before it all comes down

Don't let our love come down
