

Country Boy Love

Granger Smith

I'm Earl Dibbles Jr., I'm a country boy.
I like love; love is patient, love is kind,
Love is swappin' dip, knockin' boots, yellin' "yee yee",
Drivin' trucks, shootin' shotguns, rattlin' for bucks
That's love
And if you get them legs like that, wrappin' around
Real smooth like that, smells really nice
That's country boy love

(Crack a cold one)

This country boy love is what you need
I'm in the rut, baby, you're my doe in heat
Let's make a bed with all these bags of feed
In the back of my truck

Yea I know just how to treat a girl,
I can take you in the woods and sling shot squirrels
Take my old four wheeler for a whirl
Would you like that, baby?

If your can's running low on dip
Give me a kiss and I'll fill your lip

This country boy love is what you need,
We can knock them boots and yell "yee yee"
All them city boys jealous of what they see
Cause they ain't loving like that, no.

This country boy love is what you need
Like a 12 gauge pump can set you free
Once you taste these biscuits, that's so sweet
You ain't ever going back, no.

We can battle for a buck on our first date
Get some mud on the truck or go hunt snakes
You'll get chiggers on your legs, but that's okay
I'll scratch 'em for you later.

I ain't got no candles or red wine
I got a beer and a catfish on the line.
I pull him up, spill the guts and then
We'll fry him up for supper.

After that, take my overalls off,
But I'm leaving my boots on.

This country boy love is what you need,
We can knock them boots and yell "yee yee"
All them city boys jealous of what they see
Cause they ain't loving like that, no.

This country boy love is what you need
Like a 12 gauge pump can set you free
Once you taste these biscuits, that's so sweet
You ain't ever going back, oh no.

Yeah, two wheel drive or down four low
I can bump your back road.

This country boy love is what you need,
We can knock them boots and yell "yee yee"
All them city boys jealous of what they see
Cause they ain't loving like that, no.

This country boy love is what you need
Like a 12 gauge pump can set you free
Once you taste these biscuits, that's so sweet
You ain't ever going back, no.

That's a country boy love
That's a country boy love
