

# Country & Ya Know It

Granger Smith

If you got a can ring on every back left pocket  
And Bass Pro's where you do most your shoppin'  
If work boots walk to a John Deere office  
It's safe to say you're in the right crowd  
If you're a back road runner  
Your truck's got mudders  
If Earnhardt 3's still your favorite number  
If your neck's red then let's pour another  
'Cause hell yeah, we oughta be proud

If you're country and ya know it raise a beer  
If you're country and ya know it raise a beer  
If you're country and ya know it  
And you ain't afraid to show it  
If you're country and ya know it raise a beer

If you strum a flat top out on a back porch  
If you keep your ball cap stored on the dashboard  
And if going fishin' is your definition of fun  
It's good to know I ain't the only one

If you're country and ya know it raise a beer  
If you're country and ya know it raise a beer  
If you're country and ya know it  
And you ain't afraid to show it  
If you're country and ya know it raise a beer  
Get 'em up

I'm Earl Dibbles Jr. and I'm a country boy  
I got somethin' to say too, listen up  
If you live you out in the boonies  
If you grew up in the sticks  
I know you're holdin' a cold one  
And got a dip in your lip  
But if you came from the city  
And you're hangin' around  
Come on, just admit you're one of us now

It don't matter where you're from  
It don't matter 'cause you're here  
If you're country and ya know it raise a beer

If you're country and ya know it raise a beer  
If you're country and ya know it raise a beer  
If you're country and ya know it  
And you ain't afraid to show it  
If you're country and ya know it raise a beer

If you're country and ya know it raise a beer  
If you're country and ya know it raise a beer  
If you're country and ya know it  
And you ain't afraid to show it  
If you're country and ya know it raise a beer

And if your truck's sittin' high 'cause you jacked it to the sky  
If you're country and ya know it  
YEE YEE!

Raise a beer
