

# I Kill Spiders

Granger Smith

I heard her calling my name from down the stairs  
Daddy please come quick, I'm really scared  
I walked into her room and sat down beside her  
She said there's something way down in the sheets  
Daddy please would you look, what could it be?  
She held onto my arm, said maybe a spider  
And I said

Whenever you're lost and in the dark  
Remember you got me right in your heart  
I can make anything a little bit brighter  
There's nothing to fear in this big 'ol world  
'Cause you got me my sweet little girl  
And 'til my last breath I'll be your fighter  
I kill spiders  
I kill spiders

I brushed the tear off her cheek, she closed her eyes  
Tucked her into the sheets, kissed her goodnight  
I put together my hands and hit my knees  
And I said  
God up in heaven will you give me the strength  
To be the dad she really needs  
Give her the courage to hear me and believe  
When I say

Whenever you're lost and in the dark  
Remember you got me right in your heart  
I can make anything a little bit brighter  
There's nothing to fear in this big 'ol world  
'Cause you got me my sweet little girl  
And 'til my last breath I'll be your fighter  
I kill spiders  
I kill spiders

I could make a million bucks or be famous on TV  
Yeah but that don't really matter at all  
'Cause what she needs to hear from me is

Whenever you're lost and in the dark  
Remember you got me right in your heart  
I can make anything a little bit brighter  
There's nothing to fear in this big 'ol world  
'Cause you got me my sweet baby girl  
And 'til my last breath I'll be your fighter  
I kill spiders  
I kill spiders
