

In This House

Granger Smith

In this house we've got pictures down the halls
We've got markings on the walls
Of what a year can do, how much you grew
We have some rules

In this house, we pray before we eat
Say I love you before we sleep
And watch football after Sunday service

It's more than bricks and bones yeah
With a wrap around porch yeah
Behind that front door's where it all started

In this house we live in, we all give forgiveness
Try our best but we still fall sometimes yeah
No it ain't always sunshine, but it's a beautiful ride
Got a million memories only you can find yeah
On a quarter acre corner lot, ain't gotta knock the door's unlocked
No there ain't no place like home
In this house
Oh in this house

In this house, these hardwoods love to talk
They all creak when you walk
And that kitchen table's still tough and able
Two feet is all
In this house, we live by country music
We might fight but we get through it
All I'm saying is we're strong as that foundation

In this house we live in, we all give forgiveness
Try our best but we still fall sometimes yeah
No it ain't always sunshine, but it's a beautiful ride
Got a million memories only you can find yeah
On a quarter acre corner lot, ain't gotta knock the door's unlocked
No there ain't no place like home
In this house
Oh in this house

It's more than bricks and bones yeah
With a wrap around porch yeah
Behind that front door's where it all started

In this house we live in, we all give forgiveness
Try our best but we still fall sometimes yeah
No it ain't always sunshine, but it's a beautiful ride
Got a million memories only you can find yeah
On a quarter acre corner lot, ain't gotta knock the door's unlocked
No there ain't no place like home
In this house
