

Little Town

Granger Smith

Morning glow a 6 am
Lights come on and folks begin
Another day
In a little town
Commute to work is not too bad
People here have never had
A traffic jam
In a little town

And the plates are always hot at the cafe
Everyone's got time to just stop by

We all can learn a lot from a little town
Thinking that the way it was is the way it oughta be
Working hard and loving strong
When life gets rough they still hold on
Learn a lot from a little town

They're content, the work is tough
What they have is just enough
So grateful
In a little town
They thank the Lord for what they're given
Proud to live a life worth living
Born and raised
In a little town

And the streets will all be quiet by sundown
Everyone's at home with the family

We all can learn a lot from a little town
Thinking that the way it was is the way it oughta be
Working hard and loving strong
When life gets rough they still hold on
Learn a lot from a little town

Now it seems this big old world
Keeps changing every day
Funny how a little town
Can always stay the same

We all can learn a lot from a little town
Thinking that the way it was is the way it oughta be
Working hard and loving strong
When life gets rough they still hold on
Learn a lot from a little town
A lot from a little town
A lot from a little town
