

Lost In Love

Granger Smith

Love song on the radio
Sounds romantic but I wouldn't know
It's just nice to listen to
while I'm driving home.
I take a left on mockingbird drive
Third house, 829,
I been there a thousand times alone.

It took so long to find this freedom
Now I'd give anything to lose it all.

I wanna be lost in love
So deep in a dream that I can't wake up
Being alone is all that I've known
And that's not good enough
I wanna be lost in love

Another day the same routine
There's more to life than I'm gonna need
A little change of pace will be my remedy
For so long, I've tried so hard
To save myself from a broken heart
Now I'd like to be caught off guard this time

People say someday love will find me
But what I'm looking for won't have to be found

I wanna be lost in love
So deep in a dream that I can't wake up
Being alone is all that I've known
And that's not good enough
I wanna be lost in love

I need someplace I've never been
Where I'm not on my own again
I know too well that road ends

I wanna be lost in love
So deep in a dream that I can't wake up
Being alone is all that I've known
And that's not good enough
I wanna be lost in love
Yeah I wanna be lost in love

Love song on the radio
Sounds romantic but I wouldn't know
