

# Man Made

Granger Smith

Skyscraper, record player  
Kentucky 80 proof  
The telephone, the radio  
The footprints on the moon  
The plane, the car and all the parts  
That made the lightbulb shine  
There's a lot of things a man made  
But one reason why

All us boys wanna grow up  
To make our mamas proud  
Find that girl that lifts us up  
When life gets us down  
Behind any guy doing anything right  
There's a woman's work at hand  
If a man made anything it's 'cause  
A woman made that man

Yeah I bet money that  
A man made the wheel  
So he could drive a girl around  
And get stuck in some field  
And you can't convince me that da Vinci  
Would be as famous as he is  
If Mona Lisa didn't smile  
At him the way she did

'Cause all us boys wanna grow up  
To make our mamas proud  
And find that girl that lifts us up  
When life gets us down  
Behind any guy doing anything right  
There's a woman's work at hand  
If a man made anything it's 'cause  
A woman made that man

There are reasons why and reasons how  
We do the things we do  
And honey all of mine without a doubt  
Are you

Yeah, all us boys wanna grow up  
To make our mamas proud  
And find that girl that lifts us up  
When life gets us down  
Behind any guy doing anything right  
There's a woman's work at hand  
If a man made anything it's 'cause  
A woman made that man, yes she did  
A woman made that man
