

Moonrise

Granger Smith

Something bout a big town
Can make you feel so small
When you're stuck on the ground
And everything is so tall
I was flying so low, so low, for so long
When you came around
You gave me a first class ticket
Your kisses came with it
And took me up to the clouds

Girl you got me so high
Looking down on the city lights
It's like a midnight sky's our blacktop tonight
Yeah I'm watching the fireworks
And the world turn underneath you and me yeah baby
You got me so high
I'm walkin' on a moonrise
Oh yeah

Girl there ain't no way
That heaven's gate could be that far away
From where we are right now
Cause there ain't nothing above us but a
Couple stars fallin' down

You got me so high
Looking down on the city lights
It's like a midnight sky's our blacktop tonight
Yeah I'm watching the fireworks
And the world turn underneath you and me yeah baby
You got me so high
I'm walkin' on a moonrise

Yeah

I was flying so low, so low, so low
When you came around
And got me so high
Looking down on the city lights
It's like a midnight sky's our blacktop tonight
Yeah I'm watching the fireworks
And the world turn underneath you and me yeah baby
You got me so high
I'm walkin' on a moonrise

You got me so, got me so high
You got me so, got me so high
You got me so, got me so high
Walking on a moonrise

You got me so, got me so high
You got me so, got me so high
You got me so, got me so high
I'm walkin' on a moonrise
