Oxygen

Granger Smith

She is the lighthouse on my sea
I locked my heart, she found the key
She's what this feeling's supposed to be
She speaks the love that I'd believe

Oh, I don't ever make a move
Without her out there too

She's in the breath that I breathe
She's in my heart when it beats
She's my life and I take her in
Like oxygen

I've got her touch memorized
But I still get lost inside her eyes
When you know you know, it's no surprise
All that it took, her for me to realize

No I don't ever wanna be
Without her with me

She's in the breath that I breathe
She's in my heart when it beats
She's my life and I take her in
Like oxygen

The half that makes me whole
The reflection of my soul

She's in the breath that I breathe
She's in my heart when it beats
She's my life and I take her in
Like oxygen
