

So Surrounded

Granger Smith

Carolina
Couln't get my mind off of
All the things I forgot to forget
West Virginia just made me miss ya
You're always here
Like the sun always sets
You've never even been to Birmingham
But I still see your face
And here I am

More than once in a while
You blow in like the wind
You never go out of style
In every city I'm in
I can't help but smile
Every time you come breaking through
Like you do
It's no use
I'm so surrounded by you

Colorado
In the spring there's snow
But it's gonna melt like you melted my heart
And I could try Vegas
But that wouldn't save us
I already lost when you dealt the cards
And I might make it out to Santa Cruz
All things considered
I've got nothing to lose

More than once in a while
You blow in like the wind
You never go out of style
In every city I'm in
I can't help but smile
Every time you come breaking through
Like you do
It's no use
I'm so surrounded by you

I ended up down in Mexico
No sign of you yet
But I still know

More than once in a while
You blow in like the wind
You never go out of style
In every city I'm in
I can't help but smile
Every time you come breaking through
Like you do
It's no use
I'm so surrounded by you
