

Something To Go On

Granger Smith

Girl you know those pretty blue goodbye eyes always drove me crazy, yeah
What you say we do this thing one more time even though we know we can't save it
Let that dress slide down to the floor
One last time before I walk out the door

Give me something to go on
Give me something to hold on for one more night
Show me what I'll be missing
Every touch, every kiss yeah
There ain't nothing sweeter to remember you by
Girl it ain't gonna mess up my head if we mess up this bed
One more time before I'm gone
Give me something to go on
Give me something to go on, yeah

Ain't no need to talk about what went wrong we can just forget it, yeah
I know there's enough love left to be made of a broken heart so let it
Play that song on the radio
But baby dim them lights down low

Give me something to go on
Give me something to hold on for one more night
Show me what I'll be missing
Every touch, every kiss yeah
There ain't nothing sweeter to remember you by
Girl it ain't gonna mess up my head if we mess up this bed
One more time before I'm gone
Give me something to go on
Give me something to go on, yeah

Let that dress slide down to the floor
One last time before I walk out the door

Give me something to go on
Give me something to hold on for one more night
Show me what I'll be missing
Every touch, every kiss yeah
There ain't nothing sweeter to remember you by
Girl it ain't gonna mess up my head if we mess up this bed
One more time before I'm gone
Give me something to go on
Give me something to go on, yeah
