Turn It On

Granger Smith

I got this thing I can't work out
I really need to talk about
It's got my head spinning round

I think I'm falling in love with you
Don't know if you're feelin' it to
Tell me what I gotta do

Come on, come on, tell me how to turn it on
If there's a key I wanna know how I can get it
Show me, show me a sign to get you goin'
And if you do I promise you you won't regret it
I need to be the one you need before the feelings gone
Yeah,
Tell me how to turn it on

There must be things that you need done
Things that make your motor run
Girl, why don't you tell me just one

Let's pass up all those games they play
And cut right to the chase
I'll meet you back at home base

So come on, come on, tell me how to turn it on
If there's a key I wanna know how I can get it
Show me, show me a sign to get you goin'
And if you do I promise you you won't regret it
I need to be the one you need before the feelings gone
Yeah,
Tell me how to turn it on

So come on, come on, tell me how to turn it on
If there's a key I wanna know how I can get it
Show me, show me a sign to get you goin'
And if you do I promise you you won't regret it
I need to be the one you need before the feelings gone
Yeah,
Tell me how to turn it on

Tell me how to turn it on

Oh tell me how to turn it on
