

We Got It

Granger Smith

We got it, we got it all, yeah

Forty acres, cotton field pasture
Square bales and a barn with a tractor
Ten point buck, rollin' dove on a wire
Mud on the tires, Friday night fires

Man if you're lookin' for some home-
cookin', here's some chicken
Slide a chair up in the kitchen, mom'll get you all the fixin's

We got it, we got it all, yeah
We got it, we got it all
We're out here tippin' a fifth and pickin' a guitar
Just watchin' the stars fall, yeah
We got it, we got it all

Mobil 6, six-pack with an oil change
Styrofoam jon boat with a stock tank
Spinnin' wheel bobber floatin' on the water
Two beers left till the moon gets hotter

We got it, we got it all, yeah
We got it, we got it all
We're out here tippin' a fifth and pickin' a guitar
Just watchin' the stars fall, yeah
We got it, we got it all

I know what's what, been round enough stuff
But nothin' gets better than this
I got a pretty little thing
With a pretty little ring
On her left hand to live life with, yeah

We got it, we got it all, yeah
We got it, we got it all
We're out here tippin' a fifth and pickin' a guitar
Just watchin' the stars fall, yeah
We got it, we got it all

We got it
We got it, we got it
Yeah we got it all
We got it, we got it all
