

Drunk Since Dallas

Grant Gilbert

I'm in some town you've never heard of
Tying on the same buzz
And bender hoping it don't break
I ain't found a bright side
Just a half broke vacancy sign
Hanging outside of this place
Yeah, you took it easy and I took 30 East
With heavy heart headed out of Texas

I've been drunk since Dallas
Since I wasn't who you thought I was
Ain't no way no around it
Letting this handle do what it does
Drinking and thinking about loving and leaving
Got me this far gone girl cause
I've been drunk since Dallas

These roadside super 8
Mini fridge airplane bottles
Ain't gonna last long
Between me and this TV
And that window unit A/C
It's gonna be a cold night all alone

I've been drunk since Dallas
Since I wasn't who you thought I was
Ain't no way no around it
Letting this handle do what it does
Drinking and thinking about loving and leaving
Got me this far gone girl cause
I've been drunk since Dallas

You took it easy and I took 30 East
With a heavy heart

I've been drunk since Dallas
Since I wasn't who you thought I was
Ain't no way no around it
Letting this handle do what it does
Drinking and thinking about loving and leaving
Got me this far gone girl cause
I've been drunk since Dallas
