

Held On To

Grant Gilbert

Where you at
Where you been
Living in my head again
Wrapping up a goodbye kiss
Wrapping up arguments
All I want
All I see
Is you standing there next to me
Holding on to things you say
Holding on to me

Like a buzz
Like a high
Like a pill I should've never tried
Like a sin
It always wins
Like I never wanna love again
I've been holding on to things you always knew
I should've never held on to

I never hurt
I never seen
Someone get the best of me
Your go to hells
Your wanna leaves
Are gonna be the death of me

Like a buzz
Like a high
Like a pill I should've never tried
Like a sin
It always wins
Like I never wanna love again
I've been holding on to things you always knew
I should've never held on to

Holding inside all the things I hide
All it is
I couldn't live
Without you as my vice

Like a buzz
Like a high
Like a pill I should've never tried
Like a sin
It always wins
God I never wanna love again
Like a buzz
Like a high
Like a pill I should've never tried
Like a sin
It always wins
Like I never wanna love again
I've been holding on to things you always knew
I should've never held on to
I should've never held on to
I should've never held on to
