

# Dream, Again

Gratitude

She's always sayin maybe we'll never know  
I can't hear it for all my fears  
I'm too busy prayin wishin for what I should  
Do or say to get my way  
oh maybe well never know

We're on our way  
its never done all of the joy and pain [2]  
Dream again

The windows shuttered the big day never comes  
The gift is giving what comes with it  
Celebrate the birth at any age  
Eat up grow up shut up measure up

We're on our way  
its never done all of the joy and pain [2]  
Dream again

We're on our way  
its never done all of the joy and pain

Dream again
