Cry for Freedom (James the VI)

Grave Digger

My king won another crown - for Scotland's pride That is what we thought but we were not right Now he rules in London - a faceless king Sold his ancient kingdom to the enemy

Five laws
You gave at Perth
Betray the rights
We gained by birth

Cry, cry, cry, cry for freedom

The heritage of centuries - you did betray
The blood of Bruce flowing in your vains
How could you give away - what Braveheart died for
Freedom may be lost now and forever more

You gain a crown We pay the price You think you rule But we will rise
