

Killing Is My Pleasure

Grave Digger

As shadows fall
There's a smile on my face
Unleashing the fury
In this unholy place
Raging fire
Burns deep inside my soul
The realm of death
I'm out of control

I feel hate on my own
You will never die alone

Killing is my pleasure
In the dead of night
Holding you close
Is my sweetest delight
Killing is my pleasure
And music to my ears
Screams of despair
Remain without fears

Echoes of pain
Resonate through the air
I am the iceman
With a merciless stare
Savage delight
In every life I take
For the thrill of the hunt
I will never break

I feel hate on my own
You will never die alone

Killing is my pleasure
In the dead of night
Holding you close
Is my sweetest delight
Killing is my pleasure
And music to my ears
Screams of despair
Remain without fears

I feel hate on my own

Killing is my pleasure
In the dead of night
Holding you close
Is my sweetest delight
Killing is my pleasure
And music to my ears
Screams of despair
Remain without fears
Remain without fears
