

Road Rage Killer

Grave Digger

Straight into the sun warrior of the eastern world
On the road to Babylon far away from Avalon
Walls can't stop me I'm on the prowl
Brought a couple to death
Intoxicated by crystal meth

I am the killer the road rage killer
Hell on wheels the master of steel
I am the killer the road rage killer
Faster than light evil of the night road rage killer

Don't look around and never look back
Get your eyes straight ahead get ready for attack
Fear isn't my friend huh huh huh haa
A word I've never heard
Rage is my passion death will be my end

I am the killer the road rage killer
Hell on wheels the master of steel
I am the killer the road rage killer
Faster than light evil of the night

I am the killer the road rage killer
Hell on wheels the master of steel
I am the killer the road rage killer
Faster than light evil of the night
I am the killer the road rage killer
Hell on wheels the master of steel
I am the killer the road rage killer
Faster than light evil of the night
