Stormrider

Grave Digger

Heading for the north Heading for the south Burning the ground we leave behind We are the scum of mankind

Eye to eye and Face to face We scream and shout We shout out loud

Stormrider The devil's at our side Stormrider Passion makes us wild Stormrider Killing is our style Stormrider We'll never die without a smile

One second to live Two seconds to die Procession of loudness On steel wings we fly No one can stop us We are the law We never, never, never withdraw
