

# When Death Passes By

Grave Digger

Say hello to Brother Death  
It's time for your final breath  
He will be with you side by side  
Join his coach for your last ride

Around the world in twenty minutes  
Meeting all the good and bad  
Seconds away from holy hell  
Beast inside becomes heaven's well

Inquisition - conspiracy  
My belief opens secrecy  
Religion kills, come pay the toll  
Break the spirit of your soul

When death passes by  
When death passes by  
Let the raven fly  
Let the raven fly  
When death passes by  
When death passes by  
Life was a lie

On Reaper's wings, I feel free  
Beloved creatures touching me  
Hunting me through the shattered night  
I'm cruising around in the pale twilight

The other side is calling me  
I dive down in the deep blue sea  
Waiting for the coffin maker  
Falling in love with the underatker

Inquisition - conspiracy  
My belief opens secrecy  
Religion kills, come pay the toll  
Break the spirit of your soul

When death passes by  
When death passes by  
Souls fly high  
Souls fly high  
When death passes by  
When death passes by  
My departure to die

When death passes by  
When death passes by  
Let the raven fly  
Let the raven fly  
When death passes by  
When death passes by  
Life was a lie
