

Escorting the Soul

Graveworm

I'm confused no longer myself
Unleash the fear of god
Years of madness upon the grave
The end is still unbound
The wicked one prepares the feast
Unchain the gates of hell
Thoughts in my head whisper my name
The path of death open wide

The fate in our hands
And pray for you again
The fate in our hands
And pray for you
Again!

Now I'm here at the end of my way
Delete the fear, no regrets, no apologize
(Delete the fear, no regrets no apologize)
Betray the martyrs, my inner thoughts are broken
The human abyss, feed from my binds
(The human abyss, feed from my binds)

I'm confused no longer myself
Unleash the fear of god
I'm the dirt betrayed the burden of souls
No regret behind my hands

Arise - the god from the ashes
Walk the path for your soul

One man escorting the soul
Fear the curse all prayers unheard
Through the clouds of the madness
Before insanity will awaken with grief

One man escorting the soul
Fear the curse all prayers unheard
Through the clouds of the madness
Before insanity will awaken with grief

Now I'm here at the end of my way
Delete the fear, no regrets, no apologize
Betray the martyrs, my inner thoughts are broken
The human abyss, feed from my binds

Arise - the god from the ashes
Walk the path - for your soul

One man escorting the soul
Fear the curse all prayers unheard
Through the clouds of the madness
Before insanity will awaken with grief

One man escorting the soul
Fear the curse all prayers unheard
Through the clouds of the madness
Before insanity will awaken with grief
