

Wicked Mind

Graveworm

The knife dwindles down to nothing
As the demons cutted out
Fear our thoughts into the splinter
To what the darkness pushed away

We failed to hold our promise
The broken structure - we lose control
This life blurred the edges
A wicked mind infected the veins

With pressure built for the darkness
The anger kept inside
The rage of hate in between
I want to give any peace
I want to give you any peace

My only pleasure is the dead
I pray for strength, I pray for more
My blood will falls like rain
I am the savior of my own

Hell blood dead
Inside my twisted soul
Fear pain hate
Fearless cries around

Dark and fear behind
Is what I do not know
Infects the veins and light
Crawling inside my mind

The knife dwindles down to nothing
As the demons cutted out
Fear our thoughts into the splinter
To what the darkness pushed away

My only pleasure is the dead
I pray for strength, I pray for more
My blood will falls like rain
I'm the savior of my own

They have revenge on the soil
Distorted faces on a burning hell
We rise again and again
I'm the demon in your mind
