

## Lost Friends

Graveyard

I'm sitting here and I don't know what to do  
I think about the world and a lot about you  
It's so easy to be alone  
It's so hard to have a good friend by your side

I remember days with my best friends  
We had fun, we had a place  
But they went to another world  
Now I'm sitting here and know that it's hard to have a friend

All my memories spinning around  
And all my brothers left me and I, I'm feeling down  
All my memories guiding me through  
And my loneliness separates myself from you

I'm feeling sorry, I'm feeling weak  
About the relationship that we had  
My pain is real and I'm so ill  
That we lost each other in such a fucking way

All my memories spinning around  
And all my brothers left me and I, I'm feeling down  
All my memories guiding me through  
And my loneliness separates myself from you...

You were my best friend, that was okay  
But we've never stood under such a big pressure  
So tell me why, just tell me why  
I have survived and you escaped from my side
