

One Way Left

Graveyard

I'm bewildered, don't know what to do
And I am wondering what made me do this
Now I'm sitting in front of his corpse
My best friend is lying dead in front of me
My anger pured out from inside of me
It's time to make an end

So I will pay the prize
For what I've done, there's nothing for it
I shall burn for all my sins
But the last one is yet to come
My own lust for death is not yet drenched
Before the end I will kill

There's only one way left
The only way I can walk for now
It shall be eternal
The one way left is to make an end

I will rest in peace
'Cause now it is time to make an end
No more suffering - once and for all
No more pain - it shall fade
No more corpses - lying there
In my way
A time shall come - a time called death
That will serve - something for me
What I want - more then else
And that's what I deserve

There's only one way left
The only way I can walk for now
It shall be eternal
The one way left is to make an end

My own life shall be over
For what I've done cannot be forgiven
Now it is time
Once and for all I'll make the end
