

## See the Day

Graveyard

See the day, it's coming at last  
Yeah the day is surely coming  
Light is pouring in through shades and covers  
But in a room the air is cool as night

So I, I put out one and light another  
Please, please don't leave me here  
I wanna go to  
No I don't like to wait around

I think I'm gonna have to send myself one of those letters  
You know, the ones that come back to you after 40 years, 40 years  
Just to remind myself that I was never  
Never without love when I was with you, no
