

Walk On

Graveyard

As long as the day keep your worries away in the summertime
And as long as this weightless and watery stone keep on spinning round
As deep as the space between us two
As much as I'd like to know what you know
I hear what you're saying and try hard to listen
But I don't think I know what you mean

Walk on
Walk on
Walk on like you always do

I know what you want but I can't really tell what you need
I know of your ways but I'm not really sure where they lead
I've been there before and I'll get there again
Where right from the start I can look at the end
It's alright as long as I stay among friends
Sit around all day and wait for the right time to

Walk on
Walk on
Walk on like you always do

What news can you bring me friend
How is things looking at the end
Give some and take some away
Don't the water look good today
Can you see how the big wave break

I'm so sick of your games and how you conspire
And move me around like a pawn
You say that you care and tell me you need me
But clearly you're putting me on
So many times so many ways I'm feeling your cold cold hands
I've been thinking a long time for something to say
But that isn't why I've been gone all day
Been thinking a long time for something to say
But that isn't why I've been gone all day

What news can you bring me friend
How is things looking at the end
Give some and take some away
Don't the water look good today
Can you see how the big wave break
I'd love to see the colors fade
I think it's time to walk on

What news can you bring me friend
How is things looking at the end
Give some and take some away
Don't the water look good today
Can you see how the big wave break
I'd love to see the colors fade
Oh, it's time to walk on
(Ooh, it's time to walk on)
