

# Dance With Your Ghost

Grayscale

Take me out tonight  
Spinnin' around, just you and I  
Lettin' our chemicals collide  
Sendin' a chill right down my spine

Feelin' you breathin', always creepin'  
All the scars you left never leavin'  
I believe it when I'm sleepin' all alone

I dance with your ghost  
'Cause I'm way too scared to let go  
And I'm shakin' down to my bones  
When your shadow's breakin' me, I'll dance with your ghost  
'Cause your echo's killin' me slow  
And I tried it wrong, but I know  
When your shadow's breakin' me, I'll dance with your ghost  
Dance with your ghost

Don't turn on the lights  
I'm missin' the days when you were mine  
Feelin' the darkness in my mind  
You know I love those haunted eyes

And feelin' you breathin', always creepin'  
All the scars you left never leavin'  
I believe it when I'm sleepin' all alone

I dance with your ghost  
'Cause I'm way too scared to let go  
And I'm shakin' down to my bones  
When your shadow's breakin' me, I'll dance with your ghost  
'Cause your echo's killin' me slow  
And I tried it wrong, but I know  
When your shadow's breakin' me, I'll dance with your ghost  
Dance with your—  
Dance with your ghost

'Cause I'm way too scared to let go
