

Dreamcatcher

Grayscale

Katie, was kind of hoping you could save me
My brain is screaming at me, oh, no
Can't stop myself and now I hate it
My dreamcatcher, come on

Can you come down to where I'm staying now?
I been here before but this time it's worse somehow
Yeah, I just feel beaten down
I just need outta this candy house crowd

Katie, was kind of hoping you could save me
My brain is screaming at me, oh, no
Can't stop myself and now I hate it
My dreamcatcher, come on

Tryna not be so hard on myself
But fuck, I'm so alone and really need some help
I need a favor now
One more time, just please hear me out

Katie, was kind of hoping you could save me
My brain is screaming at me, oh, no
Can't stop myself and now I hate it
My dreamcatcher, come on

She's got that dark skin, peppermint, fingers in her mouth
Just like she likes in bed, medicine, think I got a problem, ye
ah
I wanna quit, but I'll meet you by that
Hospital in Kensington, come get me out of this

Katie, was kind of hoping you could save me
My brain is screaming at me, oh, no
Can't stop myself and now I hate it
My dreamcatcher, come on
Katie, Katie
Oh no, my dreamcatcher, singing Katie
My dreamcatcher, come on
