

# Fever Dream

Grayscale

I'm ashes, post-flame  
All the coal that disintegrates  
I'll just lie here quietly  
Sink into the earth's defeat  
As I watched you grow dull  
Wonder how you stay so cold  
Always knew something was wrong  
Never chose to play along, here

So sit down, shut off,  
I don't know how I let you lead so long  
Cause right now you're only holding me back  
Cause I'm not where I want to be  
And you're not who I wish you were  
So I'll rest my eyes and we'll try in another life

While I was eating off the floor  
Alone and drowning in my thoughts  
Your gut was full, still wanting more  
You wanted more

So sit down, shut off,  
I don't know how I let you lead so long  
Cause right now you're only holding me back  
Cause I'm not where I want to be  
And you're not who I wish you were  
So I'll rest my eyes and we'll try in another life

I walk this road, behind you now  
I feel so lost, cause you're never gonna turn around  
Down cobblestone, I scream your name  
I fight your past, cause you're never gonna feel the same

I walk this road, behind you now  
(Drown myself in this peaceful lake)  
I feel so lost, cause you're never gonna turn around  
(Feel the water pull me away)  
Down cobblestone, I scream your name  
(Maybe there's a place for us down here someday)  
I fight your past, cause you're never gonna feel the same  
(I'll see you again someday; I promise I'll see you someday)

So sit down, shut off,  
I don't know how I let you lead so long  
Cause right now you're only holding me back  
Cause I'm not where I want to be  
No you're not who I wish you were  
So I'll rest my eyes and we'll try in another life
