

## Old Friends

Grayscale

I swear that there's nothing right with me, man  
I start shit, I'm picking fights whenever I can  
I wanna leave it all like you did, broken  
I wanna leave it just like I found it  
Wish I could be a thief, a liar or just selfish  
I'm done with how this world makes me heartsick

No one knows the pain like you did  
Wish we could talk it out like old friends  
Do my best to smile through this  
'Til we can talk it out like old friends, old friends

They say the saddest people in this world laugh the hardest  
Yeah that's me, smiling it all away so you don't feel my pain  
Now maybe you'll look back at the good times  
Pay no mind, I'll hate myself but brighten your dark days  
I sit up every night with no sleep and bad dreams  
Not feeling all this love that surrounds me

I am the one at your door in the rain  
I am the one staring back at your face  
Shine some rays  
Give it all 'til there's nothing left

No one knows the pain like you did  
Wish we could talk it out like old friends  
Do my best to smile through this  
'Til we can talk it out like old friends, yeah just like old friends

No one knows the pain like you did  
Wish we could talk it out like old friends  
Do my best to smile through this  
'Til we can talk it out like old friends, old friends

Old friends, like old friends  
Old friends, like old friends  
Old friends, like old friends  
Old friends, like old friends

I'm sick of losing sleep and counting sheep again...
