

# Kingmaker

Great American Ghost

They all fucking burn

You are the hollow twisted visage  
Of the deceptions from the mouth that feeds  
Vile tongue of destitution  
Violence in every belief  
Superiority is ignorance  
Obsession shapes every word  
Lost in the disconnection  
Destruction is all you deserve

Behold the death of innocence  
Indoctrinate the weak (Kill for peace)  
Sew the seeds of hate in your heart  
Beg for the sweet release

You  
Believe in nothing  
Destroy the truth  
You will never learn  
You  
Believe in anything  
Destroy them all  
They all fucking burn

The common man is the enemy  
Obey the word of your God  
Blind faith in the eye of the storm  
This is your truth if it's true or not

Weakness in numbers  
Crawling to their demise  
Cowards  
Choke down their fucking lies

Sew the seeds of hate  
No one will be safe  
Sew the seeds of hate  
Exterminate

You  
Believe in nothing  
Destroy the truth  
You will never learn  
You  
Believe in anything  
Destroy them all  
They all fucking burn

Gone  
Are the rules of engagement  
Gone  
Your actions have sharpened the axe  
Gone  
The privilege of no consequence  
When we remove your mask

You're ruled by your fear  
Anonymous counterfeit  
You asked for the war  
So don't ask for forgiveness

Careful what you wish for you fucking cowards
