

Power Through Terror

Great American Ghost

Power through terror

Let the dagger dig
Dig into the palm
Bleed and wash away the familiar sin
Humanity is simply a pawn
In the poison design we're trapped in

Pathways to eternal salvation
Beyond the sun, it burns you alive
Ritualistic sacrifice
Drink from the chalice, give in to your vice

Power through terror
Your master has spoken
Power through terror
Oaths that can never be broken

Let the dagger dig
Dig into the palm
Hallow ground they kill to protect
Shivering skin soaked in the blood
Your innocence (Your innocence)
Manipulated

Ritualistic sacrifice
Drink from the chalice, give in to your vice

Power through terror
Your master has spoken
Power through terror
Oaths that can never be broken

Ritualistic sacrifice
Death is the ultimate price

Climb the ladder built from our bones
Empty skies swallow your soul

Power through terror
Your master has spoken
Power through terror
Oaths that can never be broken

Power through terror
Power through terror
