

# Love Me Tonight

Great Big Sea

We've waited all this time  
This long and lonely time  
The light that trickles down  
It soaks into your eyes  
All I can send her  
The awkward pretender in this life

I wonder if you'll love me tonight  
So delicate and lovely  
Wonder if you love me

Are you on my side  
My dark and lonely side  
I'll make it worth your while  
I'll give you every reason why  
All we'll remember  
The simple surrender just in time

You and I could wait and see  
A single note don't make a melody  
All together you and me  
A single note don't make a melody  
All I've been saying  
The one thing that's been weighing on my mind
