

Get Away

Great Good Fine OK

I've been aligned to things that let go of me
You figure it out, even though you were pained to know why
I know we're spent
We're both too old to leave
But I'd rather be fighting than sleeping alone

That's the thing you think about us
Holding onto you
Gotta leave and I need to find love

I've gotta get away
I always knew that love was what you wanted
I've gotta get away
The way you look I think that I might want it
I've gotta get away
I've gotta get away
I've gotta get away

Its time to face it
You don't belong to me
You fear the end but you know I'm playing along with
I try to take the time you like to keep
'Cause I'd rather be fighting than sleeping alone

That's the thing you think about us
Holding onto you
Gotta leave and I need to find love

I've gotta get away
I always knew that love was what you wanted
I've gotta get away
The way you look I think that I might want it
I've gotta get away
I've gotta get away
I've gotta get away

Lying here with you I am reminded (Got to get away)
I always knew that love was what you wanted

I've gotta get away
I've gotta get away
I've gotta get away
