

All Things Must Behave / Eternal Friend

Great Grandpa

Can't wait for the cold again
Caught a phantom on hot cement
All my friends are almost dead

Remembering last season
Got caught up in old loose ends
All my friends are almost dead

In due time I'm trying to rest
(All things must behave)
It loops back on the cassette
(All things must behave)
It gives back on my upset
(All things must behave)
Pitched down and backwards to test

Caked in the folds and bends
Pavement sears soul to head
All my friends are almost dead

In due time I'm trying my best
(All things must behave)
It loops back on the cassette
(All things must behave)
It gives back on my upset
(All things must behave)
Pitched down and backwards

White ghost you know me
Yeah, you loop back hard
When you fill my heart
With your heart
From past years
Yeah, you break my skin
Turn again
Eternal friend
