

## Everything Is Moving So Fast

### Great Lake Swimmers

What sort of pressure, and what kind of force  
Must there have been to drive you here  
Was it uplifting, or was it deformed  
Faulting, and rifting, you folded

What does it feel like to fall  
In slow motion, despite it all  
There's no time to think it through  
When we're connected over the blue

Everything is moving so fast  
I am unlimited  
Everything is moving so fast  
I am unlimited

What sort of wisdom, and what kind of thought  
Must there have been to scatter you  
So far and random, your heavenly bodies  
Still see the faint light in your eyes

What does it feel like to fall  
In slow motion, despite it all  
There's no time to think it through  
When we're connected over the blue

Everything is moving so fast  
I am unlimited  
Everything is moving so fast  
I am unlimited
