

Expecting You

Great Lake Swimmers

Something like a storm coming in
A spirit on a higher wind
From the fog and into view
I have been expecting you
Expecting you

Just ahead of tempest lines
I promise you that we'll be fine
Changes in the atmosphere
Reaching for my rosary
My soul to be

Can you hear me clearly now
Hello in there and how are you
I've been waiting patiently
Singing little melodies

Lala lala, la, la, la
Lala lala, la, la, la
Lala lala, la, la, la
Lala lala, la, la, la

Something like a storm coming in
A spirit on a higher wind
And am changing atmosphere
I have been expecting you
Expecting you

You're in a place of safety now
You are with your mother now
Such a pretty place to live
And I got a lot to give
A lot to give
