

See You On The Moon!

Great Lake Swimmers

When I grow up maybe I'll be a veterinarian. I'll take care of little animals like ponies and parakeets and I'll give them food to eat and the puppies go "yip, yip, yip" and the kitties go "meow, meow, meow" and thank you veterinarian.

Maybe I'll be an astronaut and work for NASA. Maybe I'll see you on the moon, I'll see you on the moon, I'll see you on the moon.

There's lots of things that you can be, when you grow up, just wait and see.

When I grow up maybe I'll be a farmer. Grow all kinds of food to eat like shiny apples red or green or fields of corn for dinner. I'll drive my tractor in the sun while the chickens go "cock, cock, cock" and the cows go "moo, moo, moo" and thank you farmer.

Maybe I'll be an astronaut and work for NASA. Maybe I'll see you on the moon, I'll see you on the moon, I'll see you on the moon.

When I grow up maybe I'll be a carpenter, and build a big, long house for people and their families and I'll build it out of wood and bricks with a porch where people can sit and the hammers go "knock, knock, knock" and the saws go "chop, chop, chop" and thank you carpenter.

There's lots of things that you can be, we are free to be you and me.

When I grow up maybe I'll be a singer in a band and I'll drive all across the land with my friends all in the van and I'll sing into a microphone but when it's over, I'll come home while the people go "clap, clap, clap" and the drummer goes "tap, tap, tap" and thank you singer.

Maybe I'll be an astronaut and work for NASA. Maybe I'll see you on the moon, I'll see you on the moon, I'll see you on the moon.

There's lots of things that you can be, when you grow up just wait and see. There's lots of things that we can be, when we grow up, just wait and see, see.
