

Bullets

Great Northern

It wakes you up
When you're hiding
It keeps you up
When you're sleeping
And you won't
Turn it down and keep it below
You are floating
Above the sea
And papers are following and doctors are ordering you to sleep

This change
Keeps following around
Don't want to be let down
This change, I don't need it
This change
Keeps walking me around
Keeps leading
This change

I'm hoping that I can reach
I'm waiting
You're telling me those words that I can keep in my head
I'm watching from underneath
I'm waiting for someone else to keep me from the way I'm feeling

This change
Keeps following around
Don't want to be let down
This change, I don't need it
This change
Keeps walking me around
Keeps leading
This change
