

Into the Flood

Great Northern

A parade of
Past time love
It's chasing... degrading
When i wake up
What i'm made of
Can't breathe it
It's distrusting
The waves around us
Take me to the
Land above us
And try and save us
It's what we're made of

I let it out
I let it out
I let it bleed
In front of me

Walk through it
The way you'll find it
If you walk through it
You start to feel it
Only give it away
If it's yours to pay
It's what you came from
It's what you came from
It's what we're made of

I let it out
I let it out
I let it bleed
In front of me

I tried to wait
I gave it away
But I tried to wait

I let it out
I let it out
I let it bleed
In front of me

Into the flood I feel it
Oh gonna wash it away
Into the flood I see it, I see it every day
Into the flood I feel it
Into the flood
Into the flood
