He's not the only one
I've ever seen
Could be the only one
I'll ever need

I'm not the only one (radio follow me home)
He's ever seen
Babe we're not the only ones (radio follow me home)
It can be

Now he's the only one
It could be
I'm not the only one
He's ever seen

Then I saw him waiting long ago
His eyes looked right into me

He's not the only one
I've ever seen
Could be the only one (radio follow me home)
I'll ever need

He's the only one (radio follow me home)
Stopped him as you breathe
I'm the only one
Baby it was me

I looked too hard
Trying not to see
