

Ripple

Great Northern

You were wrong just a little
So much younger i remember
I was speaking a rhythm
I won't speak in a rhythm
I won't leave it up to the morning
I won't leave in the night
And I promise no lying
Just a little bit more
A little bit more
If you don't stay up all night
You are never gonna know
Never gonna know
If you don't stay up all night..
It won't come, it won't come to this I swear

I would never lie again
I would never lie again

I wanna need it
I wanna know it, I can't control it
I wanna see it
It'll never be alone never be too late
I wanna be it
I wanna kill it
I wanna sell it
Sell it
If you don't stay up all night
You are never gonna know
It won't come to this i swear

I would never lie again
I would never lie again
Cause I would never love this way
No I would never try again
Oh why
Oh why
