

You were born  
Faster than a rail train  
And all the voice around you  
Couldn't say your name  
It looks like you got lost somehow  
It looks like you got lost  
If I found you  
(Carry it)  
We could leave  
Get out of here  
Or just fall away  
Just disappear  
It looks like we got lost somehow  
It looks like we got lost  
If I found you

You were forced into a battle that you couldn't take  
All the eyes were on you looking for mistakes  
Falling all around you  
You were lost in a maze this time again  
You wasted days just listening  
Oh wait it's all in your head  
Everything could change  
If I found you

We must have left  
We must have left them there  
We were falling  
Somebody else could win  
It looks like we got lost somehow  
It looks like we got lost  
If I found you

You were forced into a battle that you couldn't take  
All the eyes were on you looking for mistakes  
Falling all around you  
You were lost in a maze this time again  
You wasted days just listening  
Oh wait it's all in your head  
Everything could change  
If I found you
