

## This Is a Problem

Great Northern

You've got to learn  
This is the only one  
We had some things  
To safely burrow  
And here's to the stars  
Listen for the sound, let it hold on

All over the sound  
'Til it touch the ground  
Forgets that somehow

You've got to learn  
You're not the only one  
To tow your tongue  
Before you come along

All over the sound  
'Til it touch the ground  
Fall against it somehow  
Never knowing how  
Just a sound

All hearts are a little missed  
If they don't get enough  
False start to the ending  
To the ending we've come  
All along did you know this?  
Did you know this would come?

And if it makes you feel love  
And if it makes you feel love (Makes you feel love)  
And if it makes you feel love  
And if it makes you feel love (Makes you feel love)  
And if it makes you feel love (Makes you feel love)  
And if it makes you feel love  
To hear the sound
