

Livin' In The U.S.A.

Great White

Well I used to work the graveyard
Used to have to paint the stones
Now I clean the farmyard
Have to lick it clean alone
I got a wife and kid
Sharing an Econoline
We keep the sucker hid
Underneath the Hollywood sign

You know I do all right
Oh yeah and it's okay
I'd like to kill the light
I'd love to sleep all day

Living in a dream, living in the USA
Living in a dream, living in the USA

Then I used to have a penthouse
Used to have a wife like you
Now I keep the door locked
Her attorney's trying to break in too
Weveryone's aboard
It's quite the social set
And they leave me polaroids
Of everyone I never met

You know they do all right
It's the all American way
They like to stay all night
They love to drink all day

Living in a dream, living in the USA
Living in a dream, living in the USA

Purple mountain majesty
Crumble into the sea
Spirit of the spacious skies
Shine your grace on me

Living in a dream, living in the USA
Living in a dream, living in the USA
Living in a dream, living in the USA
I'm living in a dream, living in the US of A
